Screenshot

BSK-004

Summary

Incorrect validation message: Validation message says minimum 6 characters but do not accept 6 and 7 characters

Steps to reproduce

- Launch https://buggy.justtestit.org/
- Click on Register button
- Enter valid Login, First Name and Last Name
- Enter a 4 letter password (Validation message displayed saying minimum 6 characters required)
    - InvalidParameter: 1 validation error(s) found. - minimum field size of 6, SignUpInput.Password.
- Enter 6 characters (Validation message displayed saying password not long enough)
- Enter 7 Characters (Validation message displayed saying password not long enough)

Expected Result

Application should accept 6 and 7 character valid passwords

Actual Result

Validation messages displayed for 6 and 7 character valid passwords.

BSK-005

Summary

Sort by ranking in overall rating considers rankings as a String rather than Numeric

Steps to reproduce

- Launch https://buggy.justtestit.org/
- Click on Overall rating section
- Click on Rank Hyperlink to sort by rank
- Validate the sorting

Expected Result

Products should be sorted by ranks by treating the rank as a numeric value (e.g. 1, 2, 3, …)

Actual Result

products were sorted by rank as if the rank is a String (e.g. 1, 11, 12, 13, …..)

BSK-006

Summary

Products not sorted by Model, Rank and Votes when clicked

Steps to reproduce

- Launch https://buggy.justtestit.org/
- Click on Popular make section
- Click on Model, Rank and Votes hyperlinks on table header

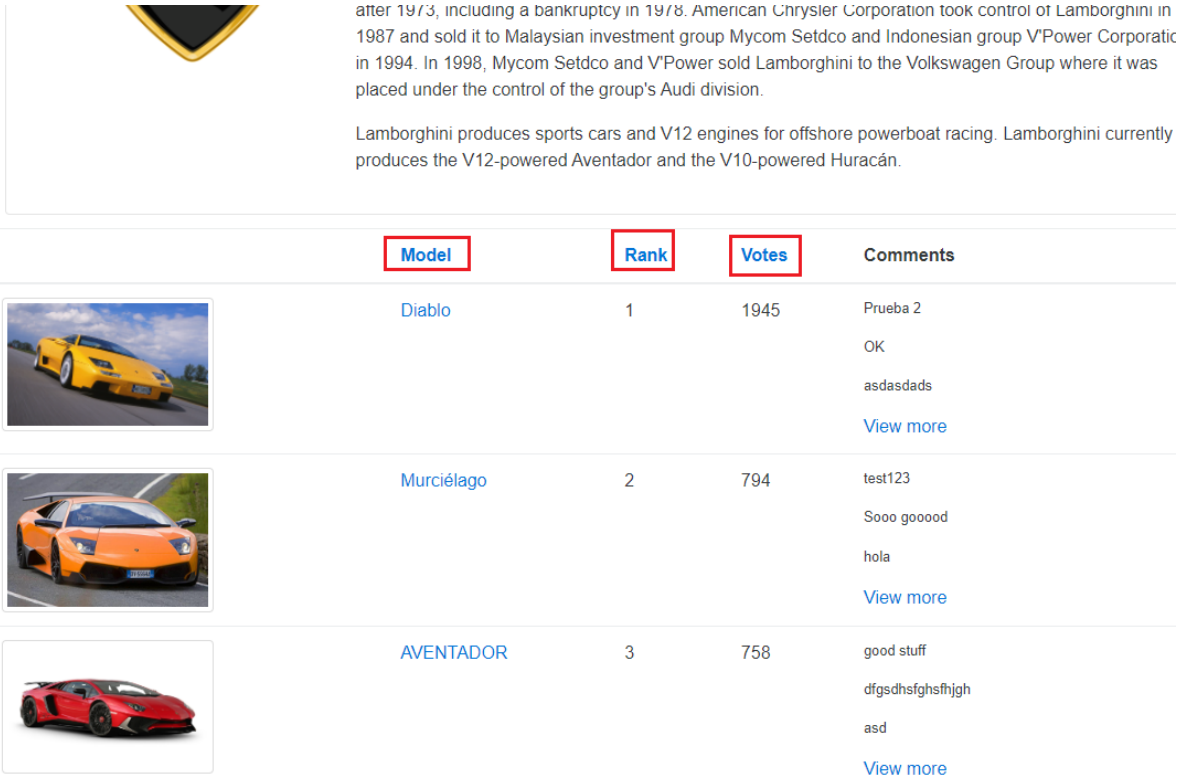
Expected Result

The products should be sorted accordingly when clicked on respective headers

Actual Result

The headers are displayed as hyperlinks, but the products are not sorted accordingly when clicked upon

Screenshot



BSK-007

Summary

Missing image of Lancia Ypsilon in Overall rating page

Steps to reproduce

- Launch https://buggy.justtestit.org/
- Click on Overall Rating section
- Navigate to last page
- Validate the image of Lancia Ypsilon

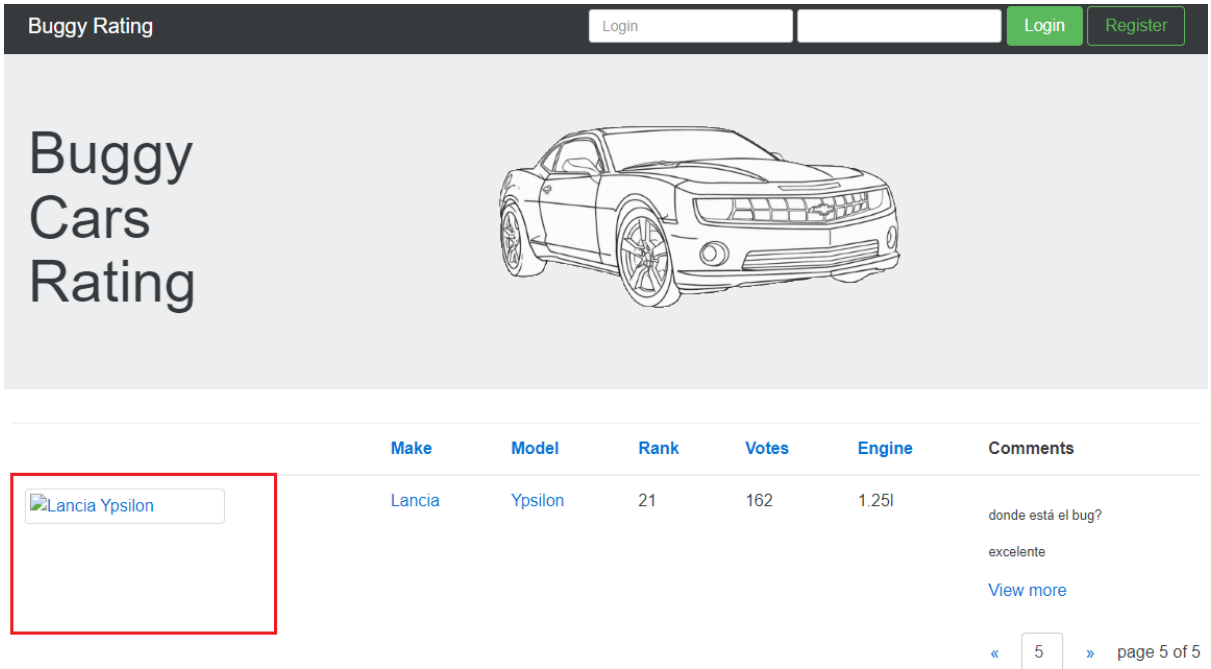
Expected Result

Image should be displayed

Actual Result

Image is missing

Screenshot



BSK-008

Summary

User can scroll to more pages even if there are no products

Steps to reproduce

- Launch https://buggy.justtestit.org/
- Click on Overall Rating section
- Keep clicking right Chevron arrow to scroll pages to the right
- Validate behaviour after user reached the last page

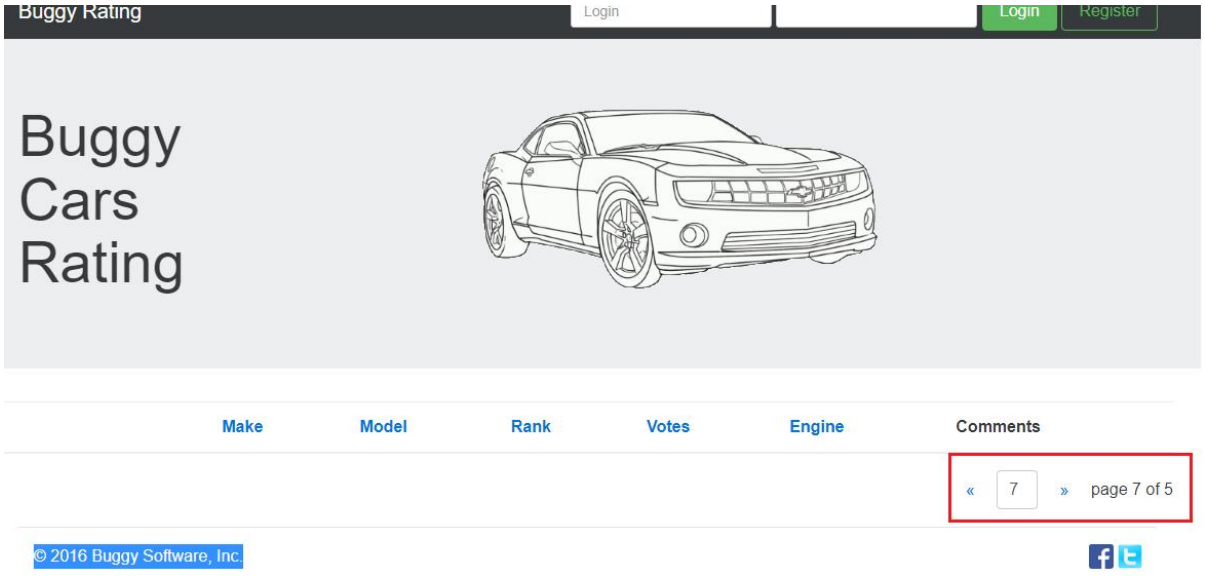
Expected Result

Right chevron arrow to scroll page to right should be disable once all products are displayed

Actual Result

User can still click right chevron arrow and scroll to blank pages

Screenshot



BSK-009

Summary

Navigation to Home page failed when clicking on Logo button

Steps to reproduce

- Launch https://buggy.justtestit.org/
- Click on Popular Make section
- On Popular makes page click “Buggy rating” Logo button
- Validate Navigation

Expected Result

User navigates to home page

Actual Result

User did not navigate to the home page. Stays on the same page

Proposed fix

Update the href tag with homepage URL
